

By the end of this half term, children should know the following facts. The aim is for them to recall these facts with speed and accuracy:

## Key Instant Recall Facts (KIRFs) Year 1 - Spring Term 2

I can count in 2s and I know doubles and halves to 10

Children should be able to count in 2s and use this knowledge to help them double and halve numbers to 10.

### Top tips

The key to success is practising **little** and **often**. Can you practise this KIRF whilst walking to school or during a car journey? You do not need to practise all aspects of the KIRF all at once; try to do these in chunks and bitesize bits. One fact a day? If you would like more ideas, please speak to your child's teacher.

### Key Vocabulary

half      double  
twice as many  
half as many  
share      group

How many flowers are there?

Share the flowers into two groups. How many is half of the flowers?

### Practical resources and ideas

Count in twos when out and about (e.g. pairs of cars in the car park). Collect ten objects around the home and practise halving groups of two objects (e.g. six objects, shared into two groups). Repeat with doubling.
