

## ORIENTEERING SEARCH FOR FUN!

*A report by Year 6 Sports Crew*

In the last term Year 6 learnt how to orienteer. Orienteering is finding codes, pictures or numbers using maps.

The answers can be used to build a word or a sentence.

Later on in the term, Year 6 created a trail for Year 1. We simplified it by making the codes animal pictures and by using half the school's area. It helped the Year 1's to find them quicker.

At the end, when we grouped together, the Year 1s said thank you and said they had a great time.

'I found it really enjoyable and active.'

'It was good having someone else there to have an extra pair of eyes and company.'

'I recommend it to all ages.'
